To promote re-industrialisation in Hong Kong, the Government has rolled out the \$2 billion Re-industrialisation Funding Scheme (RFS) under the Innovation and Technology Fund in July this year to provide funding support to manufacturers for setting up new smart production lines in Hong Kong. Funding will be provided on a 1 (government) : 2 (company) matching basis, and the funding ceiling is one-third of the total approved project cost or \$15 million, whichever is lower. In this webinar, representatives from the Innovation and Technology Commission (ITC) will introduce the RFS and answer related questions.

### Details
